

2015 Cigna RX ESSENTIAL prescription drug list

The Cigna Rx Essential 5-Tier Prescription Drug List is applicable to plans in California and Colorado, effective 1/1/2015.

This cover page is for brokers only. Please discard if providing the list to customers.

2015 Cigna RX ESSENTIAL prescription drug list

Choosing the medication that is right for you is between you and your doctor. This prescription drug list offers you an extensive list of generic and brand name medications that are covered under your pharmacy plan.

Choosing where to fill your medication should be easy, too. With access to a broad network of national, regional and local retail pharmacies, as well as Cigna Home Delivery PharmacySM, you have convenient access to your medications – whether you pick them up or have them delivered to your home.

Within this document you will find a list of medications covered under your plan, in an easy-to-read format. You will see:

1. Medications split into five categories (preferred generic, non-preferred generic, preferred brand, non-preferred brand and specialty medications)
2. Medications listed in alphabetical order
3. Symbols to let you know if there are any important details related to coverage

Your five-tier prescription drug list

A five-tier prescription drug list splits medications into five categories (or tiers):

Tier 1: Preferred Generic Medications. Preferred generic medications have the same quality, strength, purity and stability as their brand name counterparts. Preferred generic medications are available at the lowest cost sharing to you.

Tier 2: Non-Preferred Generic Medications. *This tier typically includes non-preferred generic medications and some low cost brand medications.* Non-preferred generic medications have the same quality, strength, purity and stability as their brand name counterparts. These medications are available at a higher cost to you than Tier 1 preferred generic medications.

Tier 3: Preferred Brand Medications. *This tier typically includes preferred brand medications and some high cost generic medications.* On a five-tier plan, these medications will usually cost you more than a preferred generic, but less than a Tier 4 medication.

Tier 4: Non-Preferred Brand Medications. *This tier includes a mix of non-preferred brands and high cost generic medications.* These medications are available at a higher cost to you than Tier 3 medications.

Tier 5: Specialty Medications. *This tier includes a mix of high cost generic and brand name Specialty medications.* “Specialty Medications” are medications that are used to treat an underlying disease which is considered to be rare and chronic and includes, but is not limited to, multiple sclerosis, hepatitis C or rheumatoid arthritis. Specialty medications may include high cost medications as well as medications that may require special handling and close supervision when being administered.

Understanding Cigna’s prescription drug list

Every medication available on Cigna’s prescription drug list has been approved by the U.S. Food and Drug Administration (FDA). This list represents the medications covered under your plan. If you do not see a specific medication on this list, please check myCigna.com to see a current listing of all of the medications covered under your plan.

The symbols on the list mean	
	If a medication on the list has one of the following symbols, your doctor may have to get an authorization (approval) for coverage of that medication.
PA:	Prior Authorization may be required for different reasons. To learn the requirements needed for coverage of a specific medication, feel free to give us a call.
QL:	Quantity Limit means you may have coverage for a limited amount of a specific medication.
AGE:	Age Requirement means that a person must be within a specific age group for a specific medication to be covered.
ST:	Step Therapy is a prior authorization program that requires you to try other medications available to treat the same condition before the medication with the “ST” is covered.

myCigna.com

Our customer website that can help you manage your prescription coverage:

When you visit **myCigna.com**, you can:

- Look up the details of your specific pharmacy plan
- Research thousands of available medications
- Compare medication prices using the Prescription Drug Price Quote tool
- Ask a pharmacist questions
- And much, much more!

Medications delivered right to your home

Cigna Home Delivery Pharmacy is designed for people who take prescription medications on a regular basis (including specialty medications). The benefits of Cigna Home Delivery Pharmacy include:

- **QuickFill**, our automatic refill reminder service, makes it simple for you to fill prescriptions through email or phone
- Up to a 90-day supply of non-specialty medications in one fill
- Specialty medications for more complex conditions, including those that require refrigeration and overnight delivery (limited to a 30-day supply in one fill, unless not allowed by state law)
- Delivery of medications to your door at no additional charge
- Licensed pharmacists available to help 24/7
- CoachRx: a free tool that can help with reminders, coaching and information. Visit **Cigna.com/coachrx** to learn more
- It's easy to switch! Just call **1.800.285.4812**

Save time and money with the convenience of Cigna Home Delivery Pharmacy

For more information, visit the Cigna Home Delivery Pharmacy page on myCigna.com.

Health care reform and you

The Patient Protection and Affordable Care Act (PPACA), commonly referred to as “health care reform,” was signed into law on March 23, 2010. This important legislation will result in changes to every American’s health coverage. Some of the changes took effect in 2010, and most of the law’s effects will be felt by 2014. Cigna will comply with all provisions of the law including those that impact your pharmacy coverage plan. For example, coverage of medications that have not traditionally been included in pharmacy plans, such as specific over-the-counter (OTC) medications, is available at no cost-share to you. As with all covered medications, we require a prescription from your doctor to process the claim under your pharmacy plan (including OTC medications). To get the most current information, visit www.informedonreform.com or Cigna.com and look for the “Informed on Reform” link.

If you have questions

Please call the toll-free number on the back of your Cigna ID card. We’re here to help.

Exclusions and limitations

Plans typically do not provide coverage for the following, except as required by law or by the terms of your specific plan:

1. Any medications available over-the-counter (OTC) that do not require a prescription by federal or state law except as specifically required by the Patient Protection and Affordable Care Act (PPACA).
2. Any medication that is a pharmaceutical alternative to an OTC medication other than insulin [examples include OTC Benadryl, Maalox, Sudafed PE, etc.].
3. Injectable infertility medications, and any injectable medications that require health care professional supervision and are not typically considered self-administered medications are covered under the medical benefits of the plan and require prior authorization. The following are examples of health care professional supervised medications: injectables used to treat hemophilia and RSV (respiratory syncytial virus), chemotherapy injectables and endocrine and metabolic agents.
4. Any medications that are experimental or investigational within the meaning set forth in the policy.
5. Food and Drug Administration (FDA) approved medications used for purposes other than those approved by the FDA unless the medication is recognized for the treatment of the particular indication in one of the standard reference compendia (The United States Pharmacopoeia Drug Information or The American Hospital Formulary Service Drug Information) or in medical literature. Medical literature means scientific studies published in a peer-reviewed national professional medical journal.
6. Prescription and non-prescription supplies (such as ostomy supplies), devices and appliances other than related supplies, except for those pertaining to diabetic supplies and equipment.
7. Implantable contraceptive products.
8. Prescription vitamins other than prenatal vitamins, dietary supplements, herbal supplements and fluoride other than supplements specifically designated as preventive under the Patient Protection and Affordable Care Act (PPACA).
9. Medications used for cosmetic purposes that have no medically acceptable use; such as medications used to reduce wrinkles, medications to promote hair growth, medications used to control perspiration and fade cream products.
10. Injectable or infused immunization agents, biological products for allergy immunization, biological sera, blood, blood plasma and other blood products or fractions are covered under the medical benefits of the plan.
11. Medications used for travel prophylaxis (the prevention of travel-related diseases), except anti-malarial medications.
12. Replacement of prescription medications and related supplies due to loss or theft, except in the case of a natural disaster.
13. Medications used to enhance athletic performance.
14. Medications that are to be taken by, or administered to, a customer while the customer is a patient in a licensed hospital, skilled nursing facility, rest home or similar institution which operates on its premises, or allows to be operated on its premises, a facility for dispensing pharmaceuticals.
15. Prescriptions more than one year from the original date of issue.

Cigna reserves the right to make changes to this drug list without notice. Your plan may cover additional medications; please refer to your policy for details. Cigna does not take responsibility for any medication decisions made by the doctor or pharmacist. Cigna may receive payments from manufacturers of certain preferred brand medications, and in limited instances, certain non-preferred brand medications, that may or may not be shared with your plan depending on its arrangement with Cigna. Depending upon plan design, market conditions, the extent to which manufacturer payments are shared with your plan and other factors as of the date of service, the preferred brand medication may or may not represent the lowest-cost brand medication within its class for you and/or your plan.

All Cigna products and services are provided exclusively by or through operating subsidiaries of Cigna Corporation, including Cigna Health and Life Insurance Company, Tel-Drug, Inc. and Tel-Drug of Pennsylvania, L.L.C. "Cigna Home Delivery Pharmacy" refers to Tel-Drug, Inc. and Tel-Drug of Pennsylvania, L.L.C. The Cigna name, logo, and other Cigna marks are owned by Cigna Intellectual Property, Inc.
