**We wanted a  
health plan that  
worked better.  
So we built one.**

# Modern care with modern technology

At Oscar, we believe health plans should be simple, smart and painless. So we use technology to make your whole experience easier. From getting a quote to choosing the right coverage to guiding you to the best care. Everything we do is designed to help keep you healthy and save you money.

Because Oscar is more than just another new health plan. It's care designed for the way you live today.

# Staying healthy should be as simple as getting sick.

All Oscar plans offer over 75 free preventive treatments like annual checkups, flu shots, cancer screenings, and reproductive and heart health services.

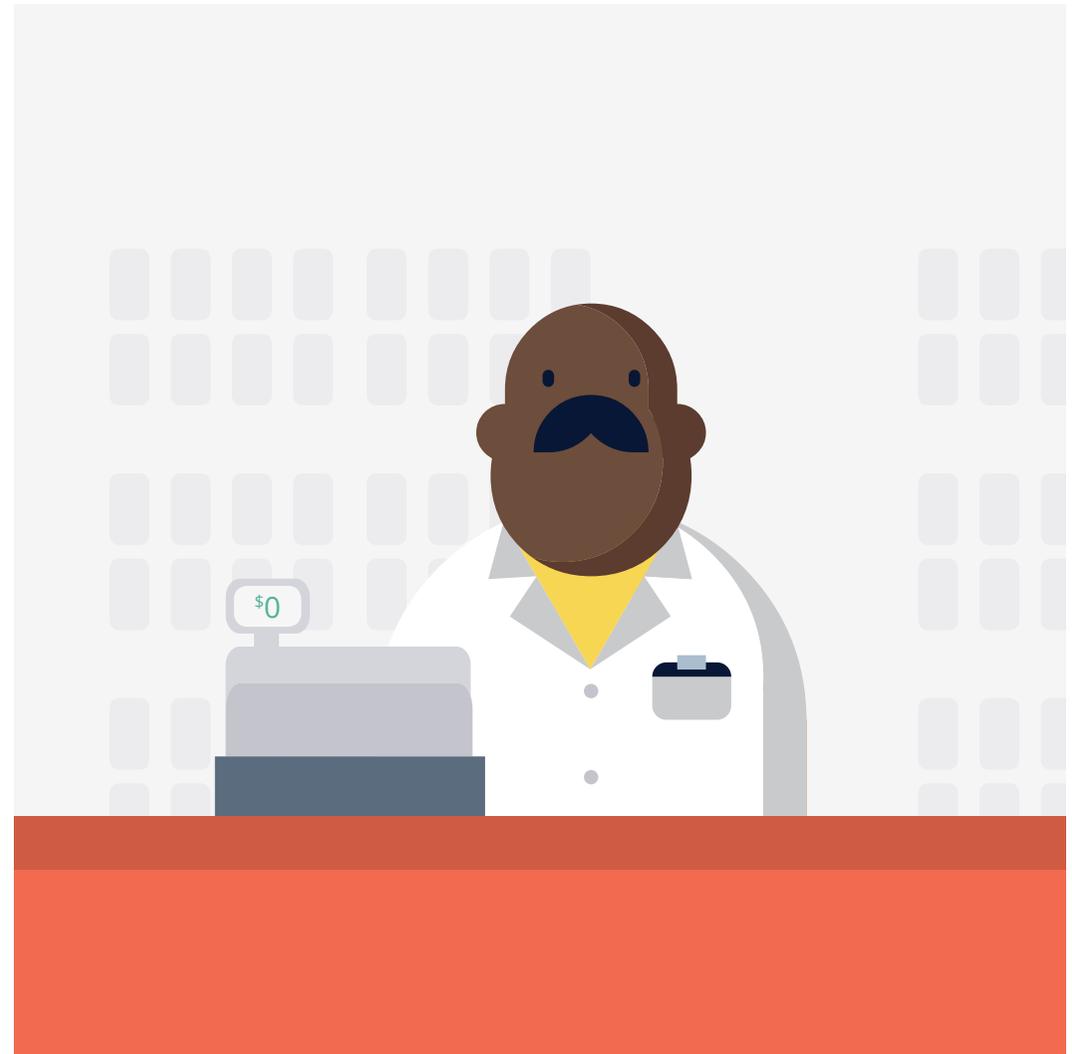

# Healthcare was complicated. So we made it easy.

Our Simple Plans are just that— simple. They offer free and unlimited access to all routine care. Primary doctor and OB/GYN visits, annual checkups, mental health services, and more. Additionally, once you reach your plan's max, Oscar pays for 100% of all in-network, covered services. No copays or coinsurance. It's no surprise that these are our most popular plans.

# When's the last time your health plan used the word free?

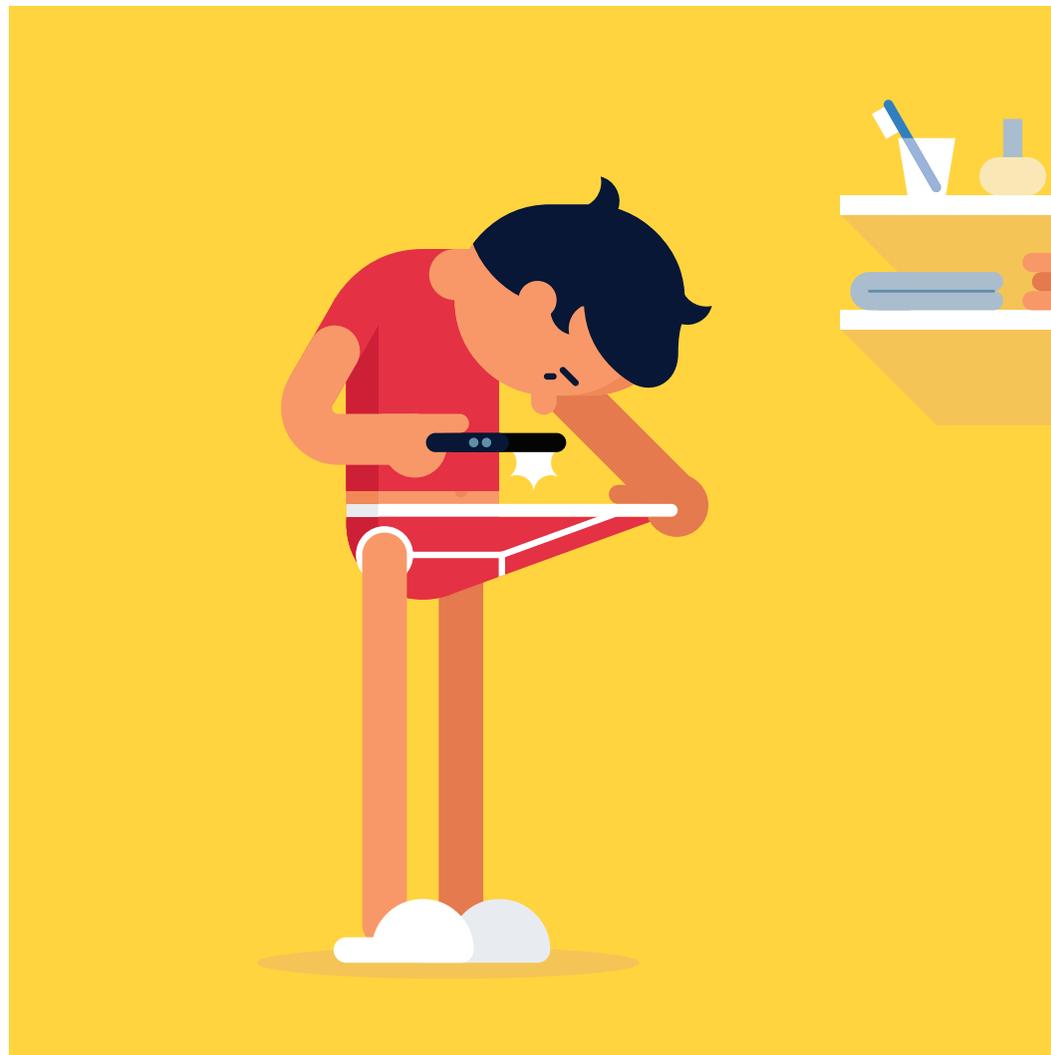

Cheap generic drugs are still not cheap enough for us. That's why many of our plans include free generics. And reduced costs on brand name prescriptions, too.

# The doctor will see you now.

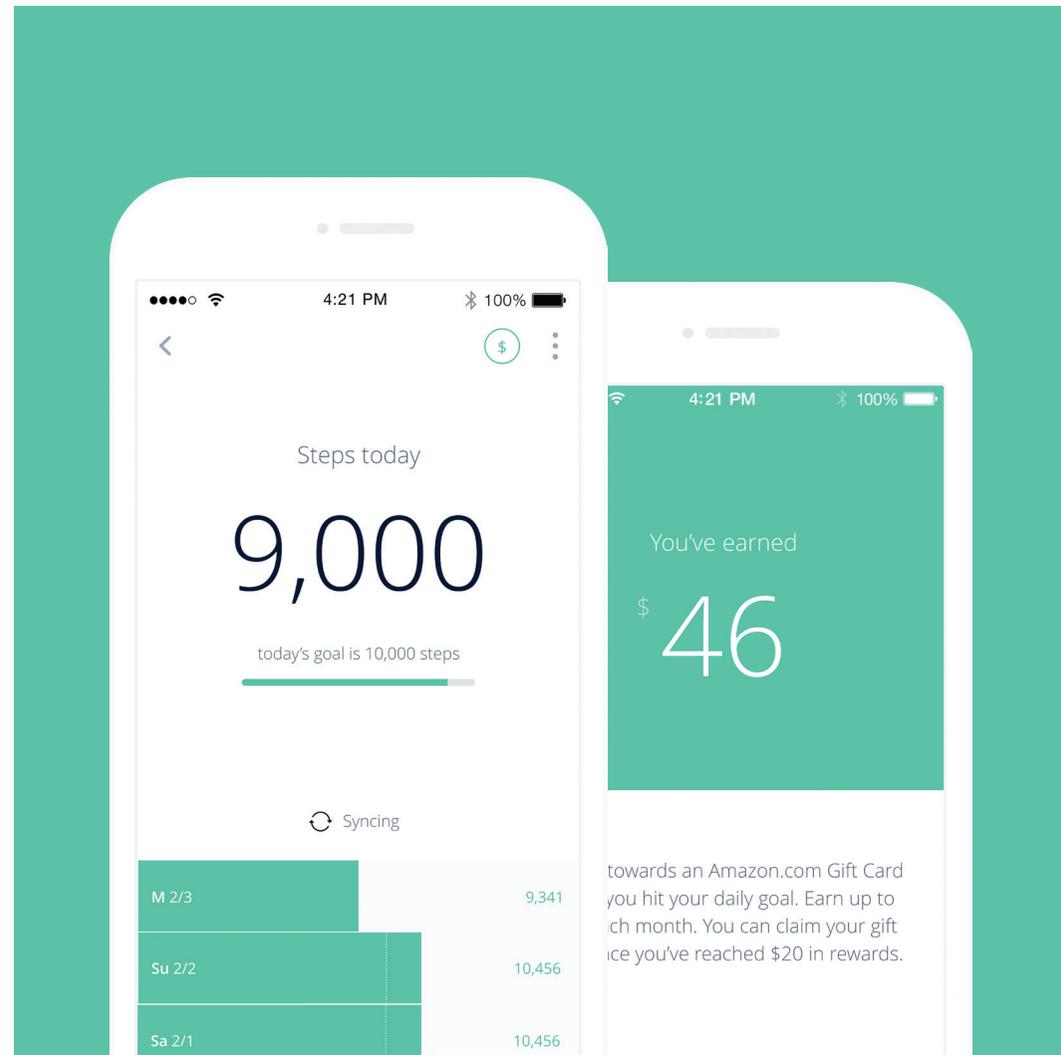

Skip the scheduling, the trek, the waiting room, and even the bill with Doctor on Call. The free service connects you directly to a board-certified doctor who can give advice and prescriptions for treating common ailments like a sore throat or the flu.

You can even share photos. Confidentially, of course. All without leaving home. 24/7/365.

# Work out. Cash in.

All our plans include a Misfit Flash fitness tracker. It syncs with the Oscar mobile app to record your physical activity. Hit your daily goals, and you can earn up to \$100/year.

# Let us fix you up with a nice doctor.

Anchored by partnerships with UCLA, Providence, St. Joseph Hoag, Good Samaritan, Henry Mayo and Huntington hospitals and physicians, we've put together a high quality network of the best providers in L.A.\* and Orange County, so you'll always have access to great care right in your neighborhood.

And our easy-to-use doctor finder can help you choose the one that's just right for you. Should you ever need to see a specialist, go right ahead. You don't need a referral.
