## Blue Shield's Treatment Cost Estimator now features member out-of-pocket estimates

Your employees who have Blue Shield of California PPO coverage have a powerful tool on their side when they're facing important treatment decisions. The **Treatment Cost Estimator** can help them compare their out-of-pocket costs, total treatment costs, and more – instantly!

Our tool gives more choices and control to your PPO-covered employees – including those with high-deductible plans compatible with health reimbursement arrangements (HRAs) and flexible spending accounts (FSAs) – by giving them access to the information they need to plan for future medical expenses.

**Our Treatment Cost Estimator is one more reason to select Blue Shield PPO plans with confidence!**

Your employees and their families\* can use our online tool to find their out-of-pocket cost estimates for more than 400 of the most common treatments and services and compare the same treatment costs at different network facilities – making it easier to decide how and where to spend their healthcare dollars.

### Find out more

We're making it easier for your PPO-covered employees to find the information they need when they need it. For more information, contact your Blue Shield of California representative.

\* The Treatment Cost Estimator tool allows PPO members to research treatment and service cost estimates for family members under the same plan who have been set up under *Manage Family*.

Total cost estimates reflect claims data gathered from Blue Shield of California's provider network. For out-of-state searches, the Treatment Cost Estimator tool uses the nationwide provider network accessible to Blue Shield members.

Note: Information provided by the Treatment Cost Estimator tool is for reference, regarding services and treatment only, and actual out-of-pocket costs may vary.
