Important! This Monday, 12/15/14: Application Deadline for January 1st Coverage

By Monday, December 15, 2014, consumers who:

- **2014 Special Enrollment** may not be auto-renew if they recently applied prior to November 15, 2014 for special enrollment. Consumers need to check the enrollment status on their online account to ensure the application shows an “ENROLLED” status on the Summary Page under the “Plan Enrollment by Person” page.
 - If the status is showing “PENDING”, consumers must pay their premium if they haven’t already done so to the health plan carrier. The carrier will let Covered California know of the effectuated date of coverage. Once this happens, the consumers must select a health plan for the 2015 benefit year.
 - If the status is showing “ENROLLED”, Covered California already auto-renew the consumers to their health plan for the 2015 benefit year. No further action is needed.
- **Auto-renewed and would like to change their health plan** must select a new health plan by 12/15/14 to start on January 1, 2015.
- **Did not provide consent will not receive Advanced Premium Tax Credit (APTC) for 2015 benefit year.** Consumers must provide their consent to Covered California to verify their household income. If they want their current 2014 APTC to continue January 1, 2015, they need to provide their consent by 12/15/14.
