# Valley Health Plan Pharmacy Information

Covered California Plan  
and  
Individual & Family Plan

## GENERAL INFORMATION

Valley Health Plan (VHP) Members have prescription drug coverage. VHP contracts with Navitus Health Solutions, a pharmacy benefit management (PBM) company to administer the prescription drug benefit and process claims. This document supplements your Combined Evidence of Coverage and Disclosure Form (EOC) handbook. Under this supplemental pharmacy benefit document, a member may receive the benefits described below, subject to all terms, conditions, exclusions, and limitations described in the EOC.

Except for certain mandatory specialty prescriptions, a member may get covered outpatient prescription drug benefits from any Plan Pharmacy. Only prescription(s) for emergent or urgent care services will be covered at an out-of-network pharmacy when a Plan Pharmacy is not available.

Visit [www.valleyhealthplan.org](http://www.valleyhealthplan.org) or call VHP Member Services at **1.888.421.8444 (toll-free)** to find a list of Plan Pharmacies.

Members should always present their VHP ID card to the Plan Pharmacy. Ask the pharmacy staff to let you know if something is not covered. A copay/coinsurance may be charged for covered benefits as listed in your EOC. If the retail price for a prescription drug is less than your copayment, the retail price should be charged.

## COVERED OUTPATIENT FORMULARY DRUGS INCLUDE:

Tier	Definition
0	Birth Control and Health Care Reform Act Drugs
1	a. Most generic and low-cost preferred brands.
2	1. Non-preferred generic drugs; 2. Preferred brand name drugs; and 3. Any other drugs recommended by the plan's pharmaceutical and therapeutics (P&T) committee based on drug safety, efficacy.
3	1. Non-preferred brand name drugs or; 2. Drugs that are recommended by P&T committee based on drug safety, efficacy and cost or; 3. Generally have a preferred and often less costly therapeutic alternative at a lower tier.
4	1. Drugs that are biologics and drugs that the Food and Drug Administration (FDA) or drug manufacturer requires to be distributed through specialty pharmacies; 2. Drugs that require the enrolle to have special training or clinical monitoring; 3. Drugs that cost the health plan (net of rebates) more than six hundred dollars (\$600) net of rebates for a one-month supply.

The FDA has strict standards for identity, strength, quality, purity, and potency before approving a generic drug. When available, the pharmacy is required to switch a brand name drug to the equal generic drug. A generic drug is identical, or bioequivalent, to a brand name drug in dosage, form, safety, strength, route of administration, quality, performance characteristics, and intended use.

If the prescriber believes a member needs the brand name drug, they must send the PBM a Prescription Drug Prior Authorization or Step Therapy Exception Request form as well as attestation the FDA MedWatch form was submitted to the FDA. If the brand name drug is determined to be medically necessary, the member will be able to get the drug.

For more pharmacy information, visit [www.valleyhealthplan.org](http://www.valleyhealthplan.org) or call VHP Member Services at **1.888.421.8444 (toll-free)**.

## PRESCRIPTION DRUG PRIOR AUTHORIZATION (PA) FORM

A prescriber must fill out a Prescription Drug Prior Authorization or Step Therapy Exception Request form for a member to get a drug that is not on the formulary. The form will be reviewed by a pharmacist and/or a physician and approval will be based on established medical criteria and/or medical necessity. A list of formulary drugs and medical criteria are available at [www.valleyhealthplan.org](http://www.valleyhealthplan.org) or by calling VHP Member Services at **1.888.421.8444 (toll-free)**.

## DRUG FORMULARY

VHP uses a drug formulary (list of covered drugs). Visit [www.valleyhealthplan.org](http://www.valleyhealthplan.org) to view the VHP Drug Formulary or call VHP Member Services at **1.888.421.8444 (toll-free)** to ask for a printed copy.

- For Covered California Plan members, select the "[Covered California Plan Formulary](#)"
- For Individual & Family Plan members, select the "[Individual & Family Plan Formulary](#)"

The VHP Drug Formulary is the list of prescription drugs that has been reviewed and selected by VHP Plan Providers on the VHP P&T Committee using professionally-recognized medical standards for medical, safety, and cost effectiveness. The formulary includes both FDA approved brand name and generic drugs. A generic drug is identical, or bioequivalent, to a brand name drug in dosage, form, safety, strength, route of administration, quality, performance characteristics, and intended use.

The P&T Committee members are actively practicing physicians, pharmacists, nurse practitioner(s), and/or nurse(s) from various specialties. The P&T Committee frequently consults with other physician subject matter experts to give additional input to the Committee. The formulary is updated quarterly after every P&T Committee meeting and a list of updates is available at [www.valleyhealthplan.org](http://www.valleyhealthplan.org) or by calling VHP Member Services at **1.888.421.8444 (toll-free)**.

## FORMULARY CHANGES

The formulary can change when a new drug, new generic, or new formulation is available. If new adverse information about the safety or effectiveness of a drug is released, this can affect the formulary status. If VHP makes a negative change to the status of a formulary drug, the plan will notify affected members and providers. If VHP removes the drug from formulary, VHP will offer a formulary alternative(s) and will allow for at least 60 days of coverage before the change becomes effective. If the FDA recalls a drug on the formulary due to safety concern, VHP will remove the drug from the formulary and send notice to affected members and providers. To get updated information about the drugs that are covered by VHP, please visit our website [www.valleyhealthplan.org](http://www.valleyhealthplan.org) or call VHP Member Services at **1.888.421.8444 (toll-free)**.

## QUANTITY LIMITATION (QL) PROGRAM

Because of potential safety and utilization concerns, VHP has placed quantity limitations on some prescription drugs. Members are covered for up to the amount posted in the VHP Drug Formulary based on recognized standards of care and FDA-approved dosing guidelines. If a prescriber believes it is necessary to prescribe more than the QL amount posted on the list, he or she must submit a Prescription Drug Prior Authorization or Step Therapy Exception Request form to VHP's PBM. A list of covered drugs with QL is available at [www.valleyhealthplan.org](http://www.valleyhealthplan.org) or by calling VHP Member Services at **1.888.421.8444 (toll-free)**.

## STEP THERAPY (ST) PROGRAM

Selected formulary drugs require step therapy (ST). This means that a Member must try an alternative clinically equivalent formulary drug(s) first. VHP P&T Committee selects all drugs required for step therapy. There may be a situation where it may be medically necessary for a Member to receive certain medications without first trying an alternative drug. In these instances, your Provider may request a Prescription Drug Prior Authorization or Step Therapy Exception Request form by contacting Navitus Customer Service. The list of formulary drugs with step therapy can be changed by Valley Health Plan's P&T Committee. An updated list of the formulary drugs with step therapy is available below.

## NON-FORMULARY DRUGS

A member can ask for a drug that is not on the formulary by requesting a Prescription Drug Prior Authorization or Step Therapy Exception Request form to be sent to the provider by:

- Contacting VHP Member Services, or its designee, at [MemberServices@vhp.sccgov.org](mailto:MemberServices@vhp.sccgov.org) or **1.888.421.8444 (toll-free)**; or
- Logging on to the pharmacy member portal at [www.valleyhealthplan.org](http://www.valleyhealthplan.org) and filling out an online request.

The prescriber must completely fill out the Prescription Drug Prior Authorization or Step Therapy Exception Request form with information that supports the request for a drug not on formulary and submit to the PBM. The form will be reviewed and approved based on established medical criteria and/or medical necessity and the member and provider will receive communication with the decision.

- The Prescription Drug Prior Authorization or Step Therapy Exception Request form request will be turned around within 72 hours for nonurgent requests, and within 24 hours if exigent circumstances exist, upon receipt of a completed prior authorization request from a prescribing provider.
- “Exigent circumstances” exist when an enrollee is suffering from a health condition that may seriously jeopardize the enrollee’s life, health, or ability to regain maximum function or when an enrollee is undergoing a current course of treatment using a nonformulary drug.

## HOW DO I USE THE FORMULARY?

- **Alphabetical Listing:** The drug names are listed in alphabetical order.
- **Medical Conditions:** The drugs in the formulary are also grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat Hypertension are listed under the category, “Antihypertensives”.

The drugs in the Formulary are also grouped into categories depending on the type of medical conditions that they are used to treat. If you know what your drug is used for, look for the category name in the list. For example, drugs used to treat Hypertension are listed under the category, “Antihypertensives.” Then look under the category name for your drug.

**RxCents (Cost Savings Enabled by Tablet Splitting)**

Tablet splitting helps control prescription drug benefit costs and can provide significant savings for members. Participation in the program is voluntary. Through this program, members pay up to one-half of their usual copayment on a select group of prescription drugs. Drugs included in this program are based on the following criteria:

- The drug product is on the formulary.
- The drug product is recognized as an appropriate product to split by the Pharmacy & Therapeutics Committee.
- The drug is flat priced (i.e. various strengths of the medication must be comparably priced).
- The medication must have once-daily dosing.

An example of the savings that can be realized through this program is illustrated below:
